Goal

My goal is to join a fast-paced, quality-driven team.

Technology Experience and Training

Full stack web developer training (dates such as Dec, 2020 to June, 2021).

Completed full-stack web developer training through the University of Washington Coding Bootcamp. Developed skills in JavaScript, CSS, jQuery, HTML, ExpressJS, SQL, Mongo Database, and many Node npm packages; developed with a five-member team a website using APIs, MYSQL database, and AWS S3 bucket; collaborated with a team on GitHub for the project on a local machine and merged into the main branch; expanded my problem-solving, organization, and written/oral communication skills and helped keep the team on track for deadlines.

IT Supervisor. Hydrometeorological Service at Cabinet of Ministers, Republic of Uzbekistan Kashkadarya, Karshi Branch (May 2013 and Dec 2016). Supervised and provided hydrologic service products for assigned WFO (Weather Forecast Office) area, including forecasts and warnings of floods and river stage for the public and numerous users dealing with water resources and/or land management, transportation, emergency management, river and flood plain control; ensured the maintenance and accuracy of severe weather call lists; appropriated office severe weather policy and procedures, including severe weather and dissemination methodologies or strategies; conducted WFO drills and proficiency checks; prepared the WFO Monthly Storm Data reports, analyzing and synthesizing information from the media, emergency management and public safety officials, and services.

IT Technician. Hydrometeorological Service at Cabinet of Ministers, Republic of Uzbekistan Kashkadarya, Karshi Branch. (Uzbekistan) (July 2011 and May 2013)

Performed back-up, recovery and systems monitoring; responsible for gathering and sending daily monthly annual weather reports to UZHYMET; assisted personnel to resolve problems with computer hardware and software at the call-in help desk; troubleshoot hardware, software, network and operating system; provided orientation to new users of existing technology; provided individual software training and support on request; maintained current and accurate inventory of technology hardware, software and resources documenting new, changing and malfunctioning online information requests related to the Service Center hardware and software.

Uzbekistan, Karshi Internet Club Network Administrator (Aug-2006 and Nov 2007)

Operated and maintained technical support and Help Desk services at the Internet Cafe in Karshi, Uzbekistan; updated and troubleshooted the computer network system including hardware and software; responded to telephone and email requests; coordinated user problem resolution with other IT personnel and acted as a resource for problem identification and resolution for users at multiple locations.
